# AFFORDABLE LUXURY

Introducing our flagship housing unit, Scarlet.

Meet Scarlet, our beloved *off-the-grid* home; also known as a *Trend Pod*. *Off-the-grid* means Scarlet is not limited to conventional energy from the grid - she can run completely independently thanks to her clean energy technology.

Designed for living in urban or remote areas, Scarlett is a durable, self-contained luxury living space. A practical '*Lock-up-and-go*' package that can fend-off anything the environment throws at her. She is also quite a stunner, we think.

## Benefits include:

- Solar Powered - up to 2 days battery life
- Fully insulated with gas heating
- 1000 liter water tank with rainwater catch
- Fast delivery time
- Off-site construction
- Comfortably sleeps 2 adults

## **BUILT FOR YOU**

Every inch of Scarlet was carefully engineered to create a unique yet comfortable living experience.

## **LIVE ANYWHERE**

Our off-the-grid technology combined with prefab construction methods means Scarlet can live on her own, anywhere.

## **GOLD WINNER**

Scarlet recently took home **Gold** at the Homemakers Expo.

## TECHNOLOGY

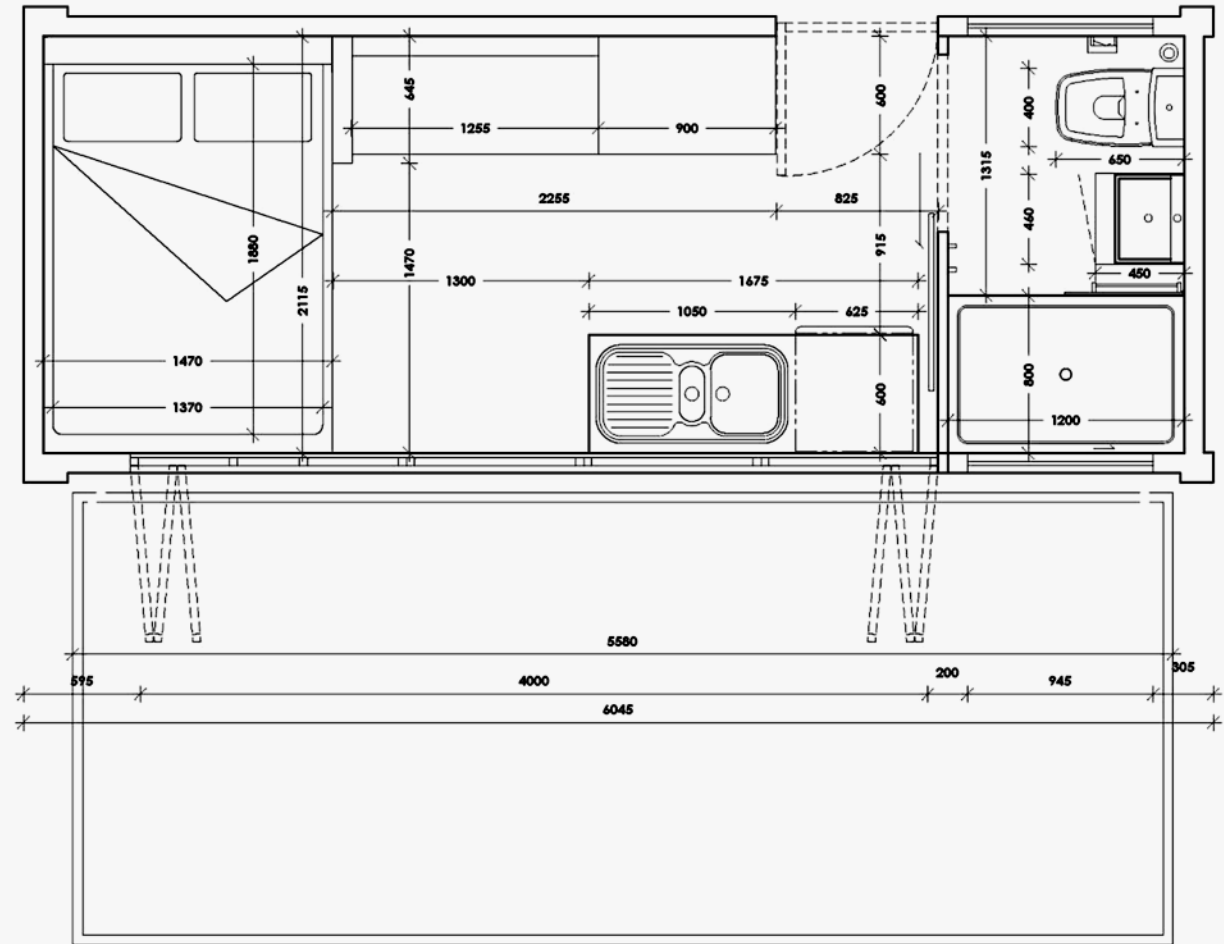

Scarlet can come equipped with a solar fueled battery giving her clean energy 24/7

## DESIGN

Our Architects and Designers worked hand in hand marrying clever and creative design. We also offer a range of customizations to make it more personal.

## DELIVERY

All the work gets done off site, so Scarlet is ready to be dropped off as a new home, holiday pad, AirBnb, granny flat, whatever and wherever you require!

# CHOOSE YOUR SCARLET

Scarlet is flexible. Choose the model that suits your needs.

\*Stating from price (excl. VAT and Transport)

## BASE

**R180 000\***

Comes equipped with bedroom, kitchen, bathroom.
